DEALERSHIP INSURANCE & BENEFITS
New Car Survey Results- Greater Philadelphia

160 Dealership Responses
The Pennsylvania Automotive Association (PAA) has prepared the following 2020 Dealership Insurance & Benefits Survey Results to assist its dealer members in being as efficient as possible in the operation of their dealerships and to reflect the industry’s participation in insurance programs and employee benefits. PAA’s Dealership Insurance & Benefits Survey Results captures information that is not included in NADA’s annual Dealership Workforce Study, and PAA highly recommends that dealerships participate in the NADA Study each year to receive information on sales and compensation trends.

Employees value health care coverage perhaps more than any other benefit, but employers are struggling with the escalating costs of providing quality programs. PAA offers a number of insurance carriers in all areas of Pennsylvania with a wide range of benefit choices. These choices will enable employers to design benefit packages that meet their needs and fit their budget.

We provide the enclosed information for your use in comparing your benefit options with those of other dealerships throughout Pennsylvania. For all your employee benefit needs, contact PAA Insurance Agency - the brokers who know your business.
