Financials	18

Dear Friends,

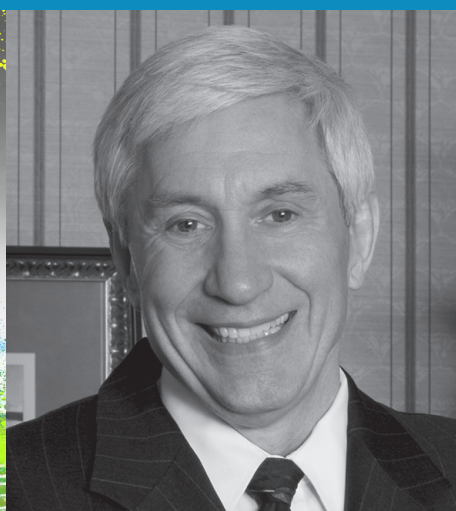

In 2013, over \$1.4 million was granted to various charitable organizations by PAAF Donor Advised and Benefactor Club account holders.

These new car and truck dealers utilize the PAA Foundation as a comprehensive resource to maximize the effectiveness of their charitable giving. PAAF accounts offer dealers flexible and efficient tools to manage your donations and to establish your philanthropic legacy.

Through various programs, the PAA Foundation encourages and recognizes the generosity of new car and truck dealers in Pennsylvania and provides opportunities for dealers to give back to the communities that supported them through the years.

***We encourage you to become our partner
in philanthropy.***

J. Paul McMillen, President
Anne M. Shuman, Vice President
and Executive Director

Because Your Passion is Our Purpose.

CHAIRMAN'S MESSAGE

Dear Colleagues,

Please take a moment to review our 2013 PAA Foundation Annual Report. These pages depict only a snapshot of the many worthwhile organizations which received donations in 2013; but, collectively they illustrate the breadth of our charitable giving and the impact Pennsylvania's franchised dealers are making in their communities.

If you have not yet joined the PAA Foundation, it is our great hope that you will be inspired to establish an account. Think of it as a savings account for your future charitable giving. We want to incentivize you to give to the causes and organizations that matter most to you.

If you would like to contribute but do not want to take part in one of the established Giving Recognition Levels, a donation in any amount can always be made to the PAA Scholarship Fund. Each year, PAA's Fund awards scholarships that benefit the dealer community.

Finally, to our donors, we commend the good work you are doing and look forward to another successful year!

CURE INTERNATIONAL

The Third Day Fund

More than 100 million physically disabled children in the developing world can be cured through surgery. These children have conditions like clubfoot, bowed legs, cleft lips, and untreated burns.

Without treatment, many will die from their condition. In 2013, the Third Day Fund generously donated to CURE International, a network of charitable hospitals and surgical programs, delivering life-changing medical care to children and families with treatable conditions in hospitals throughout 29 countries. Around the world, CURE has seen over 2.1 million patients, performed over 150,000 surgeries, and trained over 6,600 medical professionals. CURE International is transforming the lives of children with physical disabilities all over the world.

WILLS EYE FOUNDATION

Bruce and Dottie Allen Family Foundation

Bruce and Dottie Allen gave generously in 2013 to Wills Eye Foundation, supporting Wills Eye Hospital, one of the world's premier eye care facilities. More than 250,000 patients are treated annually at Wills Eye Hospital, including the Allen's great grandson. Wills Eye houses inpatient beds, eight operating rooms, teaching facilities, and research facilities. In 2013, Wills Eye was ranked second in ophthalmology nationwide according to U.S. News and World Report's Best Hospitals. The Ocular Oncology Service of Wills Eye Institute at Thomas Jefferson University is one of the few departments in the world that deal exclusively with eye tumors. Through careful clinical research and by providing the latest treatments available, they continue to assume a leading role in the field of ocular oncology.

Because of the rarity of eye tumors and their severity, patients generally travel long distances to seek expert opinion and treatment. Each week Wills Eye Hospital examines patients that travel from all regions of the United States and foreign countries.

CHILDREN'S HOSPITAL OF PITTSBURGH FOUNDATION

The Deborah L. Flaherty Foundation

Children's Hospital of Pittsburgh made national news in 2013 when window washers from Allegheny Window Cleaning, Inc. descended the building dressed as superheroes. The real heroes, however, are the children in the hospital fighting for their lives and the medical staff working to cure them. In 2013, the Deborah L. Flaherty Foundation donated to the Children's Hospital in Pittsburgh Foundation. Throughout the year the Hospital's Foundation holds a variety of events, from golf outings and dinner parties to shopping events and toy drives. Donations help to sustain the 13 playrooms available to patients at Children's Hospital, to fund special events and activities for patients and families, to provide medical equipment, and to support programs such as pet, music, and art therapy for children in recovery.

KATE SVITEK MEMORIAL

The Faulkner Family Foundation

Kate Svitek had a passion for the outdoors. She enjoyed backpacking, hiking, biking and horseback riding. In 1997, she graduated from Germantown Academy in Fort Washington, Pennsylvania, and in 2001 from the University of Vermont. Kate loved to share her passion for the outdoors with children, working as a naturalist at a school for at-risk children. In 2002, Kate Svitek died in a tragic snowboarding accident on Mt. Bachelor in Bend, Oregon. Her friends and family formed a memorial foundation to promote and help underwrite education for outdoor and wilderness exploration. The Memorial Foundation provides grants to individuals, groups and institutions whose interests and goals align with Kate's hopes and dreams. In 2013, the Faulkner Family Foundation gave generously to numerous charities, including the Kate Svitek Memorial.

BOYS & GIRLS CLUB

The Greater Lehigh Valley Automobile Dealers Association Foundation

In 2013, the Greater Lehigh Valley Automobile Dealers Association Foundation gave to several programs throughout Greater Lehigh. The Foundation accepts requests for grants from charities in their community and the Board of Directors determines who shall receive the Foundation's support. In 2013, one of the charities benefiting from their program was the Boys & Girls Club. More than simply a place for kids, Boys & Girls Club is a movement to enable young people, especially those who need support most, to fulfill their potential as productive, caring, and responsible citizens. By reaching children at an early age and providing positive activities and encouragement, the Club offers an alternative to youth crime, gang membership, drugs and other negative influences.

FATHER CHUCK'S CHALLENGE

Three Little Angels Foundation

St. Mary Fishing Village, located on the Island of Gonave off the coast of Haiti, is just one of the many locations that have benefited from the mission trips organized under Father Chuck's Challenge. Imagine being a member of one of sixty families living in shacks on a narrow, isolated beach. Remote villages, like St. Mary, have no roads and residents must travel by boat to other areas of the island. There is no potable water other than rain water and no electrical service.

Thanks to Monsignor Francis Schmidt and the charity he founded, Father Chuck's Challenge, twenty-five of the families in St. Mary have new homes. Four motorized boats were given to the community to enhance the livelihood of the villagers. The new houses have amenities that are rare for the vast majority of Haitians, featuring tiny indoor bathrooms, a solar panel that will light up to three electric bulbs and a cistern to collect the rainwater from the roof. Father Chuck's Challenge was formed in honor of Father Charles Pfeffer, a priest of the Archdiocese of Philadelphia and director of the Department of Youth Activities. Since inception, Father Chuck's Challenge has raised more than \$3,569,803. Father Chuck's Challenge provides a constant reminder to all who knew him about the importance of addressing the needs of the poorest of the poor - especially the young," Monsignor Schmidt said. "Secure, permanent homes are crucial to providing families with a new start in life." In 2013, Father Chuck's Challenge received a donation from Three Little Angels Foundation to help Father Chuck's Challenge construct one of the houses.

LOOKOUT FIRE COMPANY

Wind Gap Chevrolet Buick Foundation

On May 15, 1890, the first two hose carts were delivered to Lookout Fire Company. Built in 1970, Station 32, located at 44 West Bell Ave in Pen Argyl, Northampton County, is the 4th station in the company's history. Answering almost one hundred calls a year, Lookout Fire Company is dedicated to serving Pen Argyl. In 2013, Lookout Fire Company received a generous donation from Wind Gap Chevrolet Buick Foundation.

KAPSTONE COLLEGE OF NURSING

The Giambalvo Family Foundation

In 2013, the Giambalvo Family Foundation donated generously to the Kapstone College of Nursing, the division of The University of Alabama charged with the responsibility of preparing graduates for the professional practice of nursing. John Giambalvo's mother was a graduate of the College. The University of Alabama's involvement in nursing education dates back to the mid 1900s. Since these first graduates, student enrollment has continued to grow and the number of students promoted to the upper division portion of the curriculum has more than doubled in an effort to help with the nursing shortage. The college continues to incorporate leading-edge technology throughout the curriculum. The college's student computing labs have grown to accommodate online testing and the college's simulation center houses several high-fidelity simulators, as simulation is used as a highly effective teaching strategy incorporated throughout the undergraduate program.

MERCERSBURG ACADEMY

The Robert and Gail Hunter Foundation

In 2013, the Robert and Gail Hunter Foundation generously donated to Mercersburg Academy. Preparing young men and women from diverse backgrounds for college and for life in a global community, Mercersburg students pursue a rigorous and dynamic curriculum while learning to live together harmoniously in a supportive residential environment. Mercersburg's talented faculty instill in students the value of hard work and the importance of character and community as they teach students to think for themselves, to approach life thoughtfully and creatively, to thrive physically, to act morally, to value the spiritual dimension of human existence, and to serve others.

ST. MICHAEL THE ARCHANGEL SCHOOL

Robert P. Kelly Family Foundation

St. Michael the Archangel School is a regional Catholic, co-educational elementary and middle school located in Lehigh County within the Diocese of Allentown, Pennsylvania. Striving to foster the uniqueness of each child, the dedicated faculty and staff encourage an environment where all children believe they are created and loved by God. At St. Michael the Archangel School, all students are encouraged to get involved by choosing an activity or sport they already enjoy or by trying out something new. In 2013, St. Michael The Archangel School received a generous donation from the Robert P. Kelly Family Foundation, who also donated to Villanova University, DeSales University and numerous charitable organizations in the Greater Lehigh Valley.

WORCESTER ACADEMY

David and Trish Penske Foundation

Since 1834, Worcester Academy prepares students for the world like no other independent school. A private co-ed and boarding school for middle and high school students, Worcester provides an urban setting, diverse community, and challenging curriculum. The Academy enjoys an international reputation for instilling in its students the desire to learn throughout life, to engage passionately with the world around them, and to be honorable persons of strong and resourceful character. Worcester's Core Values – Honor, Respect, Fairness, Community, Personal Growth, and Challenge – form a foundation for “achieving the honorable”, a goal each student is inspired and empowered to accomplish. Whether collaborating with schools overseas or with a Nobel laureate at nearby UMass Medical School, students benefit from the many opportunities available to them.

YMCA

GREATER PHILADELPHIA REGION

The CARing for Kids Foundation

In 2013, the CARing for Kids Foundation donated to nine YMCA programs in the greater Philadelphia area. The mission of the YMCA is to put Christian principles into practice through programs that build a healthy spirit, mind, and body for members of the community.

Central Bucks Family YMCA

Lower Bucks Family YMCA

Upper Bucks YMCA

YMCA North Penn

YMCA of Eastern Delaware County

Upper Main Line YMCA

YMCA of the Brandywine Valley

Freedom Valley YMCA

YMCA of Philadelphia & Vicinity

In addition, CARing for Kids Foundation continued their annual Driving Away the Cold campaign, donating 31,000 new coats to children in need. In 2013, approximately 175 dealers joined the effort.

MAKE-A-WISH FOUNDATION

The Greater Pittsburgh Automobile Dealers Association Foundation

In 2013, in recognition of the contributions and service of the Board of Directors for the Greater Pittsburgh Automobile Dealers Association, each Board member was given the opportunity to make a charitable donation in their name to the charity of their choice. Board members Paul Schimizzi of Hillview Motors and Mike McWilliams of Pittsburgh East Nissan donated to the Make-A-Wish Foundation. Make-A-Wish grants the wish of a child diagnosed with a life-threatening medical condition in the United States. It all began in 1980, with Chris, a seven year old diagnosed with leukemia who, more than anything else, wished to be a police officer. Caring people in his community granted his wish and set in motion a phenomenon that would create an unprecedented kind of charity, fulfilling wishes nationwide every 38 minutes.

PHILADELPHIA RONALD MCDONALD HOUSE

Suzi and Scott Lustgarten Family Foundation

When an unlikely partnership was formed in Philadelphia in 1974 between a doctor, an NFL team, and a restaurant chain, no one could have imagined that the dream of Dr. Audrey Evans for a home away from home for families of seriously ill children would grow to become an international phenomenon.

Working as a pediatric oncologist at The Children's Hospital of Philadelphia, Dr. Evans saw families spend night after night in the hospital while their children received life-saving medical treatment. She knew there had to be a better way, and envisioned a simple house where families could stay during these stressful and uncertain times.

At the same time, the Philadelphia Eagles were raising funds in support of player Fred Hill, whose daughter Kim was in treatment for leukemia at St. Christopher's Hospital for Children.

When the Eagles General Manager Jimmy Murray approached St. Christopher's about making a donation, Dr. Lawrence Naiman suggested there was an even greater need for funds resting with Dr. Evans.

Jimmy Murray met Dr. Evans and quickly learned of her concept of a home for families. He reached out to McDonald's with the idea that they could offer the proceeds from their Shamrock Shake sales to benefit this new house. McDonald's agreed, and the Philadelphia Ronald McDonald House was born on October 15, 1974.

Today, there are more than 300 Houses all over the world serving the very families Dr. Evans sought to help. The Philadelphia Ronald McDonald House has expanded from the first seven bedroom house on Spruce Street to two Houses serving 65 families each night. In 2013, the Philadelphia Ronald McDonald House received a generous contribution from the Suzi and Scott Lustgarten Family Foundation.

HARRISBURG SYMPHONY ASSOCIATION

The Rolen E. and Patricia H. Ferris Foundation

The Harrisburg Symphony Orchestra can be traced back to the early 1930s when a group of dedicated and resourceful music lovers decided, against all odds, to form a symphony in the city of Harrisburg. The country was in the throes of the Great Depression, but the group forged ahead, giving their first concert at William Penn High School in Harrisburg on March 19, 1931. A typical season includes seven pairs of Masterworks concerts, four pairs of concerts in the Capital BlueCross Pops Series, two Young Person's Concerts for school age children, and free outdoor concerts in several communities over the July 4th weekend. In addition, the Symphony season includes a number of educational activities, including in-school performances and master classes featuring Harrisburg Symphony musicians.

CHAUTAUQUA FOUNDATION

The Craig and Susan Scott Foundation

The Institution, originally the Chautauqua Lake Sunday School Assembly, was founded in 1874 as an educational experiment in out-of-school, vacation learning. It was successful and broadened almost immediately beyond courses for Sunday school teachers to include academic subjects, music, art and physical education. By 1880 the Chautauqua platform had established itself as a national forum for open discussion of public issues, international relations, literature and science. Approximately 100 lecturers appear at Chautauqua during a season. Chautauqua plays a unique educational role today, offering studies on a vacation level, a more serious level and a professional level. In addition, there are enhanced learning opportunities within Chautauqua's other programming. Music, the arts, religion, recreation and the pursuit of knowledge are all available.

HAGERSTOWN AVIATION MUSEUM

Paul K. and Anna E. Shockey Family Foundation

Hagerstown Aviation Museum was founded in 2005 with the goal of preserving the region's rich aviation history. From 1929 to 1984, the Hagerstown Regional Airport was home to the Fairchild Aircraft Company, where thousands of aircraft were produced at the company's plant for both military and civilian customers. The idea for a museum remained dormant until 2004 when a documentary on Hagerstown's aviation history was produced. Today, in addition to two former H&P aircraft, the museum's collection includes eleven aircraft currently housed in hangars around the Hagerstown Airport, including a 1928 Kreider Reisner KR-31, Fairchild UC-61C, North American T-6, three PT-19As and a PT-26. In 2013, the Hagerstown Aviation Museum received a generous contribution from the Paul K. and Anna E. Shockey Family Foundation.

SMITHSONIAN INSTITUTION

Greg and Susan Sutliff Foundation

In 2013, the Greg and Susan Sutliff Foundation donated to the Smithsonian Institution. The Smithsonian's collections represent our nation's rich heritage, art from across the globe, and the immense diversity of the natural and cultural world. Scholars and scientific research from the Smithsonian, and from institutions and organizations across the globe, use these vast collections for their research. The Smithsonian's National Air and Space Museum maintains the world's largest collection of aviation and space artifacts, as well as related works of art and archival materials. It operates two landmark facilities that, together, welcome more than eight million visitors a year, making it the most visited museum in the country.

SCHOLARSHIPS - THE PAA FUND

PAA has been awarding scholarships since 2005. In that time, over \$1.8 million dollars in scholarships have gone to students affiliated with automotive and truck dealerships in Pennsylvania. Nearly a hundred different dealerships across the state have benefited from this program.

This year, PAA awarded \$200,000 to thirteen students. Eight students were chosen to receive the scholarships in honor of their demonstrated charitable characteristics and their work to make a positive impact in their communities. Five students were selected who are currently enrolled in, or are seeking enrollment in, an automotive technology program, and who are sponsored by a new car or truck dealer.

FIRST ANNUAL GOLF TOURNAMENT

On Wednesday, May 29, 2013, PAA hosted the first annual PAA Golf Tournament and Online Auction to support PAA Scholarships. The tournament was held at the Hershey Country Club West Course followed by a silent auction, cocktail reception and dinner.

Thanks to the large number of participants, generous industry sponsors, and sunny weather, the event was a great success, raising more than \$40,000.

All of the funds raised from the dealer community, from the golf event, dinner, and auction go directly to scholarship recipients.

2013 SCHOLARSHIP FUND CONTRIBUTORS

Dealer assistance is needed to grow the PAA Fund so that students who are the children of new car and truck dealership employees and those who desire to become technicians will continue to be able to apply for PAA Scholarships.
